## PROFILE

Enthusiastic, adaptive and detail-oriented cyber security master's student with 3+ years' experience including a role as an IT project manager in the InsureTech industry. The demand for IT security professionals has been growing steadily given our interconnected and data-driven world. This coupled with a global shortage of said professionals, offers a variety of opportunities all over the world. I have therefore decided to pursue a master's degree in this field and would be keen to explore opportunities in this growing industry.

- Have experience in successfully leading an agile development team through the full lifecycle of a project (SCRUM Methodology)
  - Able to work cohesively in a team and communicate proficiently with internal and external stakeholders
  - Able to understand problem statements and derive logical solutions quickly and efficiently
  - Excel at liaising between business and technical requirements to achieve on-time, on-budget and on-spec project completions
  - Native proficiency in English and German, elementary proficiency in Norwegian (Bokmål)
- 

## WORK EXPERIENCE

### **tigerlab SDN BHD, Kuala Lumpur Malaysia** **Project Manager, August 2018 – August 2020**

- Promoted to project manager role to plan, schedule and execute all stages of insurance software and system implementations
- Assessed business implications for each project phase and monitored progress to meet deadlines, standards and cost targets
- Liaised with international clients (from the UK and Australia) and management of their requests on a daily basis
- Led sales pitches, demos, tender interviews and assisted in business development networking
- Rolled out multiple end-to-end telematics-based solutions for an Australian Motor Insurer allowing them to price policies according to driving behavior, distance travelled and other risk factors (in cooperation with a global automobile manufacturer)

### **Business Analyst, March 2018 – August 2018**

- Implemented a BI/MI stack for the company using Kibana (Elasticsearch) and created insights for clients
- Analysed diverse insurance products to automate their respective pricing models using Excel
- Modelled system data to be able to churn out bordereaux and claim reports
- Consulted project managers on current technology trends such as Micro Services and third-party implementations
- Increased overall business process efficiency

**Malaysian-German Chamber of Commerce and Industry, Kuala Lumpur Malaysia**

**DEInternational Trainee, August 2017 - March 2018**

- Mediated German-Malaysian business cooperation
- Engaged and supported business delegations
- Managed various projects and events while identifying potential local business partners for German businesses
- Conducted market study about the Solar PV market in Malaysia
- Processed of long-term projects, such as business partner brokerage, market and site investigations, trade fair support, event consulting, investment consulting, visa application and fraud cases

**Singapore Airlines, Frankfurt Germany**

**Key Accounts Intern, March 2015 – June 2015**

**Direct Sales Intern, June 2015 – September 2015**

---
